

Applied Economics Quarterly

Konjunkturpolitik

Applied Economics Quarterly (formerly ‘Konjunkturpolitik – Zeitschrift für angewandte Konjunkturforschung’) is an international journal publishing applied research with strong relevance for economic policy. Contributions to all arenas of economic policy are invited; in particular, growth, labor, finance, regulation and competition. The journal's goal is to enhance economic policy-making by providing a forum for innovative and rigorous research. The journal is particularly interested in publishing work on European policy issues.
